

Mini-MBA in AI STRATEGY

Lãnh đạo & Bứt phá thời AI

The “Mini-MBA in AI Strategy” helps leaders harness the power of AI to elevate leadership capabilities, upgrade management frameworks, and transform business models to lead their organizations to breakthrough growth in the AI era.

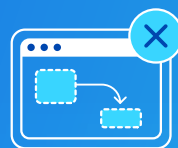

AI Strategy

Transformational Leadership

Practical Application

No Technical Background Required

No longer a future scenario, The AI era is here and reshaping everything!

*AI is driving the most profound transformation in business history.
Not coming soon - happening right now, across every industry and every scale of business.*

Decision-making speed
is changing

Operating models
are being disrupted

Competitive advantages
are being redefined

Ways of working
are changing completely

The “**Mini-MBA in AI Strategy**” approaches AI from a leadership and management perspective, empowering participants to confidently harness the power of this technology without needing any knowledge of programming or technical background.

With over 25 years of accompanying business leaders in their learning journey, PACE Institute of Management has pioneered the research, design, and delivery of the Mini-MBA in AI Strategy - helping participants unlock AI across the most critical dimensions of organizational leadership:

- AI Strategy
- Transformational Leadership
- Business Transformation
- Organizational Change
- Human + AI Collaboration

WHY NOW?

Because organizations need::

- Leaders who understand AI from a strategic and governance perspective.
- Managers who know how to work alongside AI to elevate the quality of their work.
- A workforce ready to transform - culturally, capability-wise, and systemically - to thrive in the new era.

PACE AIRE™ FRAMEWORK

The Mini-MBA in AI Strategy is built on the **PACE AIRE™ Framework**, an AI strategy framework developed by PACE to guide participants through a systematic journey: from right understanding to right action, from strategy to real-world implementation.

Align

- Align AI with business strategy and priorities.
- What goals does AI serve? Where does it create value?

Integrate

- Embed AI into processes, functions, and ways of working.
- Which use-cases? What workflows? Which tools?

Risk & Responsible

- Manage risk, ethics, privacy, and AI governance.
- Do it right & responsibly. Build trust.

Execute & Evolve

- Deploy pilots, measure, scale, and continuously learn.
- From plan to action. From pilot to breakthrough.

The critical question is no longer:
“Will AI change the world?”

But rather:

“Will we lead, adapt, or be left behind?”

WHAT YOU WILL GAIN FROM THIS PROGRAM

This program does not promise to transform your organization into a fully AI-powered enterprise in 12 sessions. Its goal is to help leaders develop the right strategic mindset, build core capabilities, and a clear action roadmap to deploy AI effectively in practice.

Strategic AI Mindset

- Understand how AI is creating value and reshaping competitive advantage in your industry
- Accurately assess AI opportunities, risks, and investment priorities
- Develop your AI Thesis - a clear strategic statement on how your organization will win with AI

AI Application Skills

- Effectively apply AI tools and methods in management and operations
- Receive a Prompt Pack for key business functions: Marketing, Sales, HR, Operations, Finance, and Team Management
- Design at least one AI Workflow tailored to your core role or process

Transformation Leadership Capability

- Know how to communicate and build organizational alignment around AI
- Design AI Quick Win initiatives that can be deployed in the near term
- Identify and develop a core team to lead transformation from within

Practical Action Plan

- Complete a 90-Day AI Action Plan with prioritized use-cases, KPIs, resources, and deployment roadmap
- Draft an AI Business Case and AI Transformation Roadmap for your organization
- Establish foundational principles for Responsible AI, data governance, and risk management

WHO IS THIS PROGRAM FOR

Entrepreneurs & Business Owners

Senior Executives (CEO, Director, Division Head)

Building AI Business Case & Transformation Roadmap	Business Case + AI Roadmap
Module V: REINFORCEMENT	
AI Implementation Lab: Practice, Peer Review & Refine	Pilot Plan
AI Strategy Pitch & 90-Day Commitment	AI Action Plan (90-Day)

**“Master the Power of AI to
Elevate Your Leadership in the New Era”**

Founded in 2001, PACE is one of Vietnam's most influential management institutes. For more than 25 years, PACE has helped advance modern management practices in Vietnam - strengthening leadership capacity, elevating governance standards, and expanding organizations' global outlook. PACE is also the first school for business leaders in Vietnam.

PACE is a trusted partner in transforming leaders, teams, and organizations to achieve breakthrough and sustainable performance in an ever-changing world.

PACE's 3 Core Solutions to relize its mission:

- 1 PACE Training
- 2 PACE Consulting
- 3 PACE Books

PACE ecosystem **includes 8 affiliated schools, 8 member companies, and 8 global partners**, aligned across three integrated pillars: Training, Consulting, and Publishing. Together, they cover eight core disciplines of management: General Management, HR Management, Financial Management, Marketing Management, Sales Management, Production Management, Supply Chain Management, and Project Management.

PACE also advances its mission through **PACE NPOs**, a long-term portfolio of non-profit educational initiatives launched in 2007, designed to deliver comprehensive and meaningful impact.

The logo for PACE Institute of Management is centered within a large white circle. The word "PACE" is written in a bold, blue, sans-serif font. A small, light blue triangle is positioned between the 'A' and 'C'. Below "PACE", the words "INSTITUTE OF MANAGEMENT" are written in a smaller, blue, sans-serif font.
